Timetabled Intervention Sessions

English

All year 11 students have an additional (fifth) hour of English this year called the “Worksop for Excellence”. The workshop is timetabled in the Hall and is designed improve their overall writing skills by focussing on planning, writing stamina and inference.

Maths and Science

All year 11 students are on a “Wednesday Period 5” intervention program. Students have been placed in small groups based on their previous assessments and question level analysis so that they receive sharply focussed targeted intervention.
